Good or Bad ?

This story is from the time of Mahabharata when Guru Dronaacharya (Master) was teaching Pandavas and Kauravas.

One day Acharya thought of testing his disciples.

He called Duryodhana (Kaurava) and said, "Do one thing, go and search for a good man and bring him to me."

Duryodhana said, "Ok. I will leave right now and start searching for a good man." After some days, Duryodhana came back to the ashram and said to Acharya, "I searched everywhere, searched far and wide but couldn't find any good man whom I can bring to you."

Acharya replied, "Ok. Now send Yudhishtira to me."

When Yudhishtira (Pandava) came to Acharya, Acharya said to him, "Do one thing, go and search for a bad man and bring him to me." Yudhishtira agreed and set out to search.

After a few days, Yudhishtira returned to the ashram without bringing anyone with him. Acharya asked him, "Why did you come back alone?"

Yudhishtira replied, "Acharya, I have not seen so much evil in any man that I could bring to you."

At this, all the other disciples were surprised and asked, "Acharya, how is this possible that Duryodhana couldn't find a good man and Yudhishtira couldn't find a bad man?"

Learning:

#1. This world is not good or evil on its own. It is a reflection of our thoughts, attitudes, behaviour, and actions. When we look at someone, then we look at them the way we ourselves are. Then we judge if that person is good or bad.

#2. Good or bad is just a difference in our respective attitudes. It all depends on our attitude. Are we looking at good qualities in a person or the areas in which s/he lacks? A person has both good as well as bad qualities. We will focus on what we want to see in a person and that depends upon the kind of person we are.

#3. As a leader, it is very important that we catch our team members doing the right things and appreciate them there and then. We should try to ignore the small mistakes. Repeated mistakes or areas of improvement should be brought to the notice of that team member in a constructive manner.

#4. We are very quick to judge someone. We must be patient and hold on to our opinions or judgment till the time we have full facts and information. Leader must ascertain facts and have enough information before making a judgment about someone or something.
