Ltd.◆ Presently associated with the Rivigo Services Private Limited as Associate cum Operation Executive.◆ Possess excellent communication, leadership, relationship management and analytical skills.◆ Responsible for the transport, distribution operations and for providing excellent standards of service, efficiency, and performance through outstanding manpower management skills.◆ Capacity to work under pressure situations and relate to people across hierarchical levels for smooth operation.◆ Maintaining smooth supply chain operations by strategically negotiating with vendors for improving service delivery, quality of material and seamless distribution with reliability, thereby achieving cost savings.

ORGANISATIONAL EXPERIENCE

Rivigo Services Private Limited - (09 Months)

Oct 2018 - Present

Associate cum Operation Executive: - Handling end to end Supply Chain Management, Fleet Management, Transportation, Pitstop Operations, Vehicle (RTO) Documentations, Vehicle Route Planning, Toll/Cash Management, Pilot Management, resolve the client problems with the help of BD and complete Logistics activities in PAN India.

Major Highlights: -

- ◆ Responsible for overall Placement Assurance. Coordination with operation and planning control team for the placement of vehicle at client place for loading, Transit, maintenance and unloading.
- ◆ Pilot management and RCA of availability at the Pitstop for incoming/outgoing fleets.
- ◆ Pilot changeover at the Pitstop within time limit and vehicle inspection, document inspection during changeover.
- ◆ A survey of new road and route for vehicle to maintain the proper transportation cost.
- ◆ Handling preventive, predictive, schedule maintenance, repairs of vehicles and test drives for all vehicles. To scheduled checks of machinery parts of the auxiliary system.
- ◆ To manage E-way bill & Follow up with transporters for material movements as per schedule.
- ◆ Sound knowledge and work experience of working to critical deadlines of Supply and Logistics operations. Worked with Planning team, Placement Assurance team, tracking team, Maintenance team, Pilot engagement team and coordinate with Client & BD.
- ◆ Planning routes and load scheduling for multi drop deliveries. Also, time to time plan the vehicle for its schedule maintenance.
- ◆ Approving time sheets for delivery for optimize Time Management and tracing cargo movement/containers through GPS tracking system.
- ◆ Handling inventory to keep records of shared materials. Inventorying around 8000 phones which are distributed to our pilots.

System Administrator: - Monitoring the network server, server maintenance, creating the user directory, creating new server and setup for monitoring and resolving the problem of US clients over phone call.

Major Highlights: -

- ◆ Responsible for new server creation as per client requirements and setup them on server for monitoring.
- ◆ Creating user directory for clients and provide them access for server use.
- ◆ Handling call from the US clients and resolve issue over phone call.

PRACTICAL TRAINING

Organization : BHARAT ELECTRONICS LIMITED
 Functional Areas : VLSI & DATA COMMUNICATION
 Training Duration : 01 Months

Organization : NATIONAL INSTITUTE OF ELECTRONICS & INFORMATION TECHNOLOGY
 Functional Areas : MATLAB- ARDUINO INTERFACING & DESIGNING
 Training Duration : 01 Months

TECHNICAL SKILLS

Automation Training : ARDUINO, MATLAB, PCB DESIGNING, VLSI DIGITAL DESIGN
 Languages : C, PYTHON, MACHINE LEARNING(ONGOING)

ACHIEVEMENT & HOBBIES

- ◆ Won Prize in lawn tennis at college level.
- ◆ IEEE student chapter paper presenter.

STRENGTHS

- ◆ Antifragile: - Bounce back
- ◆ Leadership quality: - Manpower management
- ◆ Data driven: - Deep dive in RCA report
- ◆ Ownership & Bias for action

ACADEMIC DETAILS

- ◆ BTech (Electronics & Communication Engineering) from DR APJ ABDUL KALAM TECHNICAL University, LUCKNOW in 2018 with 72.54%.
- ◆ HSC from UP Board in 2013 with 82.6%.
- ◆ SSC form UP Board in 2011 with 77.0%.

Projects & Seminars

- ◆ Line follower Robot with metal detecting using ARDUINO
- ◆ Recognition of vehicle number plate using MATLAB
- ◆ Design of fractional order digital differentiator using radial basis function using MATLAB
- ◆ A behavioral design approach in designing RAM
- ◆ A progressive VLSI coding for wavelet-based image compression using MATLAB
- ◆ Worked on "Pilot duty auto allocation" project. Due to which the pilot's duty is being automatically. The output of this project – Pilot is coming for duty without any manual information. The amount spend on pilot is reduced by 6%.

PERSONAL MINUTES

Date of Birth (DD-MM-YYYY) : 01 Nov 1997
 Nationality : Indian
 Languages Known : English, Hindi

I declare that the details above are correct and true to the best of my knowledge.
